

DOT0100 INTEGRATED TACTILE

Dottac's 316 stainless steel integrated tactile plate is built for long-lasting, maintenance-free performance. This fully integrated ground surface indicator is designed to alert the visually impaired of any potential hazards or provide directional guidance. Made from austenitic stainless steel, it is built to withstand changing conditions and provide stable performance. As per the Disability Discrimination Act (DDA), it is mandatory to install Tactile Ground Surface Indicators (TGSIs) on stairs, ramps, and other areas.

FEATURES

Machined, with concentric circle design on the horizontal face with a smooth outer edge

Tested for compliance with AS 1428.4

P5 anti-slip rated in accordance with the Australian Standards AS 4586, the highest in the industry.

Highly polished, bright, and attractive surface finish.

Allows easy installation over otherwise difficult substrates, such as timber decking, carpet, and escalator maintenance plates.

WARRANTY 2 year warranty on the product

SLIP RESISTANCE
