

## Convex Mirror

### INSTALLED IN CEILING OR WALL MOUNTED

1. Attach the Base Plate Bracket to the ceiling or countertop
2. Attach the Channel Bracket to the Base Plate Bracket
3. Attach the Mirror to the Bracket and adjust for the proper angle.
4. Tighten the screws on the ball bracket to fix Mirror in the desired position.
5. Place Mirrors as close to eye level as practical for theft and intrusion protection in Retail Area.
6. Place Mirrors up high in a position so that the image can be seen by attendant over and behind obstructions.
